

# Hybrid Pro 10FT Modular Backwall Kit 34

HP-K-34

Create a commanding presence with the Hybrid Pro™ Modular Kit 34 10ft x 10ft display. This exhibit kit combines fabric, form and function! Seamless, pushfit SEG fabric graphics gives real estate for powerful branding and messaging. The aluminum frame system is strong, durable and recyclable; it comes with a lifetime warranty. A 36" w x 47" h laminate slotwall panel provides the opportunity to put merchandise or promotional items on display. Add a 50" or smaller monitor to share videos and other dynamic content.

We are continually improving and modifying our product range and reserve the right to vary the specifications without prior notice. All dimensions and weights quoted are approximate and we accept no responsibility for variance. E&OE. See Graphic Templates for graphic bleed specifications

## features and benefits:

- Features & Benefits:
- Silver aluminum extrusion frames
- Laminate slot wall panel for merchandise display
- 7 single-sided SEG dye-sublimated push-fit fabric graphics
- Medium monitor bracket holds 50" or smaller monitor & 40 lbs. max weight
- 1 Lumina 200 LED floodlight, straight arm and adjustable head, black finish, 19.5" from end to end
- Cases included: OCFM (1) & OCH2 (2)
- Lifetime hardware warranty against manufacturer defects

\*Monitors not included

## dimensions:

### Hardware

Assembled unit:

119.09" w x 94.50" h x 24.04" d  
3,025mm(w) x 2400mm(h) x 611(d)

Approximate Weight:  
303 lbs / 137 kg

### Graphics

Refer to related graphic templates for more information Visit:

<https://www.theexhibitorshandbook.com/downloads/download-graphic-templates> or click here

### Shipping

Packing case(s):

1 OCFM  
2 OCH2

Shipping dimensions:

OCFM:  
(38" W x 15" H x 49" D)  
962mm(l) x 838mm(h) x 1245mm(d)

OCH2:  
(52" L x 29" H x 15" D)  
1448mm(l) x 1449mm(h) x 838mm(d)

Approximate shipping weight:  
393 lbs / 172 kg

## additional information:

Graphic material:

Dye-sublimation SEG push-fit fabric

2 person assembly recommended:

This product may include the following materials for recycle: aluminum, select wood, fabric, cardboard, paper, steel, and plastics.

HP-K-34

# FABRIC, VINYL & UV GRAPHIC CARE GUIDELINES

## GENERAL HANDLING FABRIC GRAPHICS

- Your fabric graphics should always be handled in a clean, dry area with clean hands. When possible, use white fabric gloves.
- Be sure fabric is clean and dry before packing.
- Machine washing and/or drying is not recommended for all fabrics. Refer to the chart below for which fabrics are washable.

## EMERGENCY STAIN TREATMENT (FABRIC)

- For dry stains, like loose dirt or pencil marks, try initially using masking tape or Magic Eraser (dry-not moistened).
  - Introduce water or liquids to treat stains, if at all possible, treat the stain with fabric off of the frame.
- Place a clean dry cloth behind stain (to absorb stains while being treated). Moisten another cloth initially with just water (distilled water is optimal, if available).
  - Gently blot stain with moistened cloth (or small area of moistened Magic Eraser), while trying to push stain through to the back, using the dry cloth to absorb.
  - Repeat using care to keep the wet area as small as possible.
  - Grandma's Secret Spot remover can be an effective stain remover. Mix several drops in a small cup with clean water. Repeat above and using dry cloth on back of stain to absorb.

## MACHINE WASHING FABRIC GRAPHICS

- Cold water/delicate cycle/tumble dry low or air dry. For stretch fabrics do not use dryer, let hang dry.
- Use caution on dryer time with graphics containing liners. Its best to put tension fabric on frame when fabric is still damp and let it air dry. Always be sure that the aluminum frame is clean when mounting the damp graphic.
- Fabric stretch graphics that washed and machine dried may shrink up to 3/4" per every 50" of fabric in the direction of the stretch and shrink up to 1/4" in non stretch direction.

## STORING & PACKING BACKLIT GRAPHICS

- To avoid cracks in the ink or having to steam graphics, Backlit fabrics should be loosely folded with bubble wrap or stored around a tube.
- Avoid folding the graphic tightly to store in a small bag or box.

## GENERAL HANDLING VINYL & UV GRAPHICS

- Vinyl banners and rigid graphics should always be handled in a clean, dry area with clean hands. When possible, use white fabric gloves.
- Be sure vinyl/ UV is clean and dry before packing. Always follow material handling and packing instructions included.
- All vinyl material should be rolled with graphic facing into protect the graphic printed side. Roll on a tube in available.
- Avoid folding material to reduce the risk of crease lines and chipped inks. If a graphic must be folded, try and fold loosely and as few times as possible.

## EMERGENCY STAIN TREATMENT (UV)

- For drier stains, like loose dirt, pencil marks or adhesive, try initially using masking tape, Masking tape can be quite effective at lifting dry surface dirt. Try 'pulling' as much of stain away as you can and avoid rubbing the stain into the material.
- While using Windex® avoid scrubbing harshly. Too much pressure can fade the graphic print.

## GENERAL HANDLING OF ROLLABLE PVC PANELS

All mural panels, truss panels and detachables should be rolled with the graphic facing out to protect the graphic printed side. Mural panels should be stored in the original plastic sleeves that are provided with the panels.

## STEAMING FABRIC GRAPHICS

- For optimal results, steam wrinkles when fabric is tensioned and installed securely on the frame.
- Fill steamer with clean drinking water or distilled water. Avoid using water containing hard minerals.
- Hold steamer upright and hold close to fabric. Avoid touching fabric with steamer.
- Do not top steamer as water drips may cause water marks to form on graphic

# SET-UP NOTES

Redesign of this exhibit without approval by Orbus may result in dangerous and unsafe structures. Nimlok disclaims any responsibility for redesigned exhibits it does not approve in writing.

Parts and components such as panels and extrusions are manufactured to metric sizing. Where ever possible sizes have been noted in feet and inches as well as in metric. Below is the imperial to metric sizing table for reference. "Nominal" refers to approximate size.

## NOTE: PARTS MAY COME PRE-ASSEMBLED FOR PACKING PURPOSES.

### METRIC TO IMPERIAL DIMENSION

2400mm = ( 94.50" )	1200mm = ( 47.25" )
2100mm = ( 82.67" )	900mm = ( 35.50" )
1800mm = ( 70.87" )	600mm = ( 23.62" )
1500mm = ( 59.05" )	300mm = ( 11.81" )
